POLITICS ONCE MORE.

The campaign for city offices this year reminds me of the one two years ago, in that it is so different. The lone bosom of the lake is not more placed than I at the present moment. At the corresponding time a couple of shaw's years back I frequently found it necessary to dodge down side access to get out of the way or frequent females to whom I had intimated that they would be better off at their knitting than in mixing up in a mack. Hornby,

that they knew little about. However, that's neither here not there. I mention the matter mere but there are followed by way of culling attention to some of the many queer contrasts in a queer sort of existence. The past month the most popular book at the public library was Henry Webster's "The Real Adventure."
This new story is what one would call a social document. For it is concerned with a problem of modern life that has wide and deep significance for the whole social body. However, he has made it so entirly the individual problem of his two chief charty and the roses bloom below:

vidual problem of his two chief char-acters that it is hardly fair to call it a "document" of any kind. No-

where in recent fiction are there two characters having more in them of the vital worth-while stuff of which life is made than his Rose and Rodney Adlrich. A young woman of vicey Adlrich.
